

There is a very simple solution to this situation. I PERSONALLY pay XM Radio a monthly fee to listen to THEIR product. I, and we, as a whole, really don't need the NAB's bureaucratic assholes who are only bound by the "Grease my pockets" jerk-offs who are trying to dictate whether or not what I get to listen too. The NAB should, and needs too, get out of XM's business, and worry about all the other stupid shit that they get their hands into! XM does an excellent job of delivering me a quality product, and that they, the NAB, have no right in telling them what they can and can't distribute, as long as it's legal! It's too god dam bad that these other radio stations have a problem with the Traffic and Weather, as I demand that the FCC reject the NAB's petition 04-160 immediately!!!
